

EPG ONE™ Wins Overall SupplyTech Solution of the Year in 2025 SupplyTech Breakthrough Awards

*Annual Awards Program Recognizes Innovation in the Global
Supply Chain Technology and Logistics Industry*

Northlake, Texas (June 11, 2025) [Ehrhardt Partner Group \(EPG\)](#), a global leader in unified supply chain execution and warehouse management technology, announced today that EPG ONE™ has been selected as the winner of the “Overall SupplyTech Solution of the Year” award in the 4th annual [SupplyTech Breakthrough](#) Awards program conducted by SupplyTech Breakthrough, a leading independent market intelligence organization that evaluates and recognizes standout technology companies, products, and services in the supply chain technology and logistics industry around the globe.

SupplyTech Breakthrough selected [EPG ONE™](#) as the “Overall SupplyTech Solution of the Year” due to its globally implemented, unified supply chain execution platform that encompasses business-critical technology across the global supply chain and logistics lifecycle, including:

- Warehouse Management System (WMS)
- Warehouse Control System (WCS)
- Voice Picking Solutions
- Intelligent Route Optimization
- Global Multi-Carrier Shipping Execution
- Extended Workforce Management
- 3PL Contract & Billing Management
- Supply Chain Control Tower
- Dock Management
- EPG ONE™ Digital Workflows App

Serving as the backbone for a unified supply chain, [EPG ONE™](#) transforms supply chain management from a cost center into a strategic asset—unlocking speed, efficiency, resilience, and better customer experiences. Combined with a deep expertise in managing highly complex and automated Level 5 warehouse environments, EPG ONE™ empowers global organizations to further digitize and automate to meet today’s extensive supply chain pressures.

“Consolidating and streamlining the supply chain and logistics tech stack is a strategic necessity for organizations to improve agility, visibility, cost control, and competitive advantage,” states Allen Rivet, EPG’s Vice President of Sales, Americas. “Thank you to SupplyTech Breakthrough for this important

Press Release

recognition of our unified supply chain execution platform, EPG ONE™. We'll continue expanding our solutions for seamless configuration and scalability, leveraging our over 35 years of global warehouse and logistics expertise to deliver exactly what our valued clients need."

The mission of the annual SupplyTech Breakthrough Awards program is to conduct the industry's most comprehensive analysis and evaluation of the top technology companies, solutions, and products in the global supply chain and logistics industry today. This year's program attracted thousands of nominations from over 15 different countries throughout the world.

"Supply chain and logistics teams are relying on a patchwork of tools with poor integration, manual processes, inconsistent data, and rising costs. Fragmented systems create fragmented supply chains, leading to a demand surge for unified technology for modern operations," states Bryan Vaughn, Managing Director of SupplyTech Breakthrough Awards. "EPG ONE™ enables global supply chain and logistics teams to turn their technology into their competitive advantage by enabling streamlined, efficient, and secure operations at every level of complexity and scale. We're so pleased to recognize EPG ONE™ with the 'Overall SupplyTech Solution of the Year' award!"

[Learn more about EPG ONE™](#), the unified supply chain execution platform that enables smarter connected logistics for organizations worldwide.

About EPG

Ehrhardt Partner Group (EPG) is a global leader of unified supply chain execution technology, supporting global brands for over 35 years with smarter connected logistics. Over 1,600 organizations around the world put their trust in EPG and its suite of solutions to optimize complex logistics processes from manual to fully automated warehouse environments. EPG ONE™ unified supply chain software centralizes WMS, WCS, WFM, voice solutions, multi-carrier global shipping execution, intelligent route optimization, dock management, contract and billing management, and supply chain control tower, enabling integrated supply chain and logistics management from end-to-end.
